As reports of phone scams as well as email phishing schemes continue across the country, the Internal Revenue Service is warning taxpayers of a new phishing scam targeting Washington D.C., Maryland and Virginia residents.

This time, the email scammers are citing tax fraud and trying to trick victims into verifying “the last four digits of their social security number” by clicking on a link provided. The criminals specifically state that this is for tax filers in the District of Columbia, Maryland and Virginia. As a further attempt to trick residents of the Capital region, the email scam even suggests that information from recent data breaches across the nation may be involved.

“As we approach the final days of this filing season, we continue to see these tax

revenue departments and the tax industry to make sure taxpayers understand the dangers to their personal and financial data as part of the “[Taxes. Security. Together](#)” campaign.

In general, the IRS has added and strengthened protections in our processing systems this filing season to protect the nation's taxpayers. For this tax season, we continue to make important progress in stopping identity theft and other fraudulent refunds.

Protect Yourself

Phishing is a scam typically carried out with the help of unsolicited email or a fake website that poses as a legitimate site to lure in potential victims and prompt them to provide valuable personal and financial information. Armed with this information, a criminal can commit identity theft or financial theft.

If a taxpayer receives an unsolicited email that appears to be from either the IRS or an organization closely linked to the IRS, such as the Electronic Federal Tax Payment System (EFTPS), report it by sending it to phishing@irs.gov. Learn more by going to the [Report Phishing and Online Scams page](#).

It is important to keep in mind that the IRS generally does not initiate contact with taxpayers by email to request personal or financial information. This includes any type of electronic communication, such as text messages and social media channels. The IRS has [information online](#) that can help protect taxpayers from email scams.

Each and every taxpayer has a set of fundamental rights they should be aware of when dealing with the IRS. These are your [Taxpayer Bill of Rights](#). Explore your rights and our obligations to protect them on IRS.gov.
