Accounting CS from Thomson Reuters is part of a complete suite of accounting practice applications. The CS suite of applications is one of the market leaders in accounting firm software. The full suite includes: client accounting, payroll, tax preparation, client portal, engagement management, document management, workpaper, workflow management and more.

[From the 2016 Reviews of Virtual CFO Accounting Systems.](#)

Accounting CS is an accountant centric solution that is designed to extend direct access by clients through the NetClient CS portal application.

## Best Fit:

Hello. It looks like you're using an ad blocker that may prevent our website from working properly. To receive the best experience possible, please make sure any blockers are switched off and refresh the page.

If you have any questions or need help you can email us

- NetClient CS portal provides a feature rich web based client interface
- Deep feature set for trial balance and financial reporting
- Well suited for client write-up engagements
- Multiple staff can work in client applications simultaneously
- Only available through accounting firms

### Potential Limitations:

- Not available as a stand-alone application, requires access through NetClient CS portal
- Limited opportunity to leverage the potential of integrated 3<sup>rd</sup> party industry specific applications

### Summary and Pricing:

Due to the number of variables that impact the pricing: applications selected, number of users, number of clients, etc., you will need to contact Thomson Reuters directly for a customized pricing quote.
