Oct. 24, 2016

IntelliChief, LLC, a provider of automated document management and workflow enterprise content management (ECM) solutions, has announced the addition of Collaboration That Connects to IntelliChief Analytics, the multi-database engaging business intelligence platform of IntelliChief ECM. Collaboration That Connects was created to bring colleagues and data collections together, creating an environment

where decisions may be made by utilizing all the organization's information, no

- Creates self-service, on-demand reporting utilizing information from all company databases, compiled and displayed for accessible usage

- Visualizes multi-layer detail; users are able to focus on big-picture overviews, or drill-down and drill-through as deep as the original source data, that collectively,

- Unites data reporting, easily shared amongst colleagues and project teams, enhancing ongoing collaboration throughout the organization.

The self-service, drop-and-drag simplicity empowers users to independently create and configure these visualizations intuitively, without technical assistance required. This versatility enables customized reporting on any data facet, based on objectives, business processes and viewing preferences, all leading to ability for exploration and action on insights.

IntelliChief ECM provides a smooth, automated transition from costly manual document management and workflow functions. Its industry-awarded automated capture, document management, workflow and real-time analytic visibility enables users to capture documentation in any format, index contents and validate with data in their enterprise resource planning system (ERP) and line of business applications, for lifecycle-managing all related documentation, facilitating optimized interdepartmental processes workflow automation and cash flow optimization.

Areas of use include Accounting (both Accounts Payable and Accounts Receivable), Finance, Customer Service, Human Resources, Legal, Logistics/Distribution, Operations and other paper and process-intensive departments, supporting time and cost savings throughout organizations.
