preparation outsourcing increased from 47% to 58% and website management changed from 27% to 38%. For 51 to 100 employees, tax preparation outsourcing increased from 31% to 43%, website management, from 19% to 31%.

The top three challenges reported by small businesses remained steady: Hiring new employees (50%), increasing profits (46%) and employee healthcare (44%).

Half of small businesses do not believe they receive enough support from the government.

While the order of the top three fiscal challenges stayed the same from 2016, the concern for each challenge dropped slightly for 2017. Growing revenue concerns fell from 43% to 39%, cash flow worries fell from 36% to 34% and funding fears fell from 19% to 15%.

Only small businesses with between 5 to 10 employees expect more of a challenge in increasing their profits (50%) than hiring new employees (48%).

Wasp Barcode Technologies is a provider of small business productivity systems such as inventory control, time and attendance, point of sale, and the supporting mobile computers, barcode scanners and barcode printers used to automate operations. The company is based in Plano, Texas.

About the 2017 State of Small Business Report

The 2017 State of Small Business Report research is based on a random online sample of 1,127 U.S. small business owners and executives with companies with five to 499 employees. The anonymous survey was conducted via the internet from November 10th to November 18th, 2016. The survey has a margin of error of +/- 2.9 at the 95% level of confidence. Sikora Associates, LLC provided statistical analysis.
