# Right Networks

**Right Networks** has announced integration partnerships with leading business application companies **Bill.com** (business payments), **Expensify** (receipt and expense management) and **TSheets** (time tracking). Right Networks is a provider of cloud-based accounting and business solutions for CPA firms, accounting professionals and small-to-medium-sized businesses.

Designed to address accounting professionals' key business needs, the three apps are part of the new Right Networks **Business Cloud** and **Application Cloud** bundles, bringing together a streamlined set of cloud connected applications that accounting professionals and their clients can use to run their business, streamline workflow, and boost productivity and savings.

The Right Networks Business Cloud and Application Cloud are two new solution bundles that are part of the Right Networks Cloud. Launched in November, these two bundles feature a broad set of cloud accounting and business applications designed to streamline business operations and provide accounting professionals and their small business clients a better way of working together.

Bill.com, the largest U.S. business payments network that processes over \$50 billion a year for more than 2.5 million members, will be easily available and useable to customers in the Business Cloud and Application Cloud offers from Right Networks. Bill.com has built an industry-leading reputation for helping businesses and accounting firms get paid 2-3 times faster and reduce the time spent on bill approvals and payments by 50%.

“Bill.com streamlines and mobilizes AP and AR for accounting firms and businesses, allowing them to concentrate on providing great products and services to their clients. With Right Networks, even more accountants and business owners are going to have the opportunity to see how Bill.com helps them pay and get paid faster. We're excited about that opportunity,” said Becky Riffs, Strategic Partner Manager at Bill.com.

Expensify, the only receipt and expense management partner of the AICPA and CPA.com delivers real-time, cloud-based expense reporting through a user-friendly web and mobile application. Users can track receipts, manage company cards, and submit, approve, and reimburse expense reports from the Expensify mobile app, then sync the data directly to QuickBooks Desktop hosted on Right Networks for complete financial records, at no additional hosting cost.

“More and more, small businesses are turning to cloud storage solutions to ensure that their data is secure and accessible. We're excited to partner with Right Networks to make this easier for our mutual customers,” said TJ Ferriss, Head of Strategic Partnerships at Expensify.

TSheets, the No. 1 rated and requested mobile time tracking app, integrates with the Right Networks Cloud to give Right Networks users the ability to track and manage employee timesheets anywhere and from any device, with no extra hosting costs. TSheets has established itself as a leader in employee time tracking and scheduling

software that automates timesheets for fast and easy payroll, provides real-time

The Right Networks Business Cloud offering features the ability to host Bill.com, Expensify, and TSheets alongside QuickBooks Desktop. Business Cloud also allows users to streamline their work even further by pairing QuickBooks Desktop in the cloud with access to Microsoft Excel, eliminating the need to copy and paste files to a local machine.

Right Networks Application Cloud users have the ability to host Bill.com, Expensify, and TSheets, in addition to an unlimited number of applications from the company's directory of 150+ business operations and accounting applications, ranging from business analytics and reporting to finance to management to retail.

These new partnerships are part of the all-new Right Networks cloud, with three offerings designed to cloud-connect accounting professionals to their small-business clients at every stage of their growth.
