and Reports, along with several other choices. Those that are processing payroll for clients can access all client data from this interface as well. The product also offers several options that users can choose to implement during payroll processing, including the ability to suppress hours and payrates on payroll vouchers, suppress social security numbers, and a definable work week.

Mentioned earlier, AMS Payroll includes tax tables for all 50 states the District of Columbia, and Puerto Rico. Users can assign employees to multiple states, though they can only print quarterly returns for one state, with the program prompting the user to choose the state they wish to print.

AMS Payroll offers fairly standard reporting options, with reports such as Employee Period Detail, State Wage Worksheet, Payer Check Detail, and Employee Federal Withholding Detail. There are few options available to customize reports, though they can be exported as a tab-delimited file and opened in Microsoft Excel for customization if desired.

AMS supports all common federal payroll forms such as the 941, 940, 943, 944 and 1040 Schedule H as well as SUI forms for all 50 states, the District of Columbia and Puerto Rico. AMS Payroll will also electronically file 941, 944, and 940 forms and can easily export W-2 and 1099 data to the optional Forms Filer for year-end processing. The product also offers electronic filing for 29 states and can handle both state and federal tax deposits as well.

AMS Payroll users can import payroll data into the system via tab-delimited text files, but the product does not integrate with any third-party time-keeping applications.

Designed as an add-on module, users will need to purchase W-2/1099 Forms Filer in order to use AMS Payroll. The product also integrates with several other AMS products including 1042-Filer, ACA Filer, e-Filer, Direct, Forms Filer Plus and
