Apr. 24, 2018

Vertex, Inc. and SAP Ariba have partnered to provide integration between Vertex's indirect tax solutions and SAP Ariba applications. Vertex is among the first to offer an extension leveraging an SAP Ariba API to enable companies to obtain tax calculations from within SAP Ariba solutions, supporting the requisition and invoice reconciliation phases of the tax process.

“As businesses strive to manage the impact of digital transformation and increased tax complexity, Vertex has prioritized developing integrations that serve the global tax community's needs on the tools they already use. This partnership with SAP Ariba will drive users' success by providing enterprise-ready tax functionality,” said Paul Beirnes, managing director of partner development at Vertex.

SAP Ariba solutions integrate the entire buying process across an organization. These solutions connect to millions of suppliers across direct and indirect expense categories and offer an end-to-end automated system, removing complexity and allowing buyers and suppliers to manage everything from contracts to payments all in one place.

“We’re pleased to grow our relationship with Vertex and look forward to simplifying
