What are you doing to make a difference in the profession, your community, the world?

Working with today's accountants and CPAs around the world giving them the knowledge they need to break free of the box and punch above their weight by understanding the cutting edge technology and skills they need to have rewarding and fulfilling lives.

Breaking the negative stereotypes around millennials and getting different generations to understand the millennial mind. Millennials shouldn't be a bad word and each time I can have someone come up to me and say, "I finally understand why millennials behave the way they do, it finally makes sense", I know I'm doing my part to make a difference in the world.

Favorite books/websites/speakers:

- Darren Root, who first opened my eyes to what was possible in the profession.
