changes to tax law this year, and the tax forms, there is a very good chance ...

Dec. 20, 2018

With the new tax reform law, many taxpayers are itching to find out if their refunds will be larger this year. And when will you get your tax refund? So, what's the earliest you can get your tax refund check?

Friday, Feb. 1, 2019 (maybe) — But more likely, Friday, Feb. 8. (March 1 if EITC.)

The “maybe” depends on several things:

1. The IRS usually starts accepting returns around the third week of January, but with major changes to tax law this year, and the tax forms, there is a very good chance the tax season will start a week or two later.
2. If the taxpayer has the **Earned Income Tax Credit (EITC) or CTC (Child Tax Credit)**, **refunds are not processed until late February** to ensure that persons claiming those credits are qualified to.
3. Direct Deposit or paper check? Having your refund direct deposited can save as much as 10 days of processing and mailing time. And it's free.
4. E-file or paper file? Paper filers wait at least a month longer for their refunds.

The tax reform law officially kicked in on January 1, 2018, but the taxes you are filing now (by April 15, 2019) will be when most Americans see the changes. To clarify: This is for the tax forms that most Americans **will be filing in January, February, March and April 15, 2019** (for their income earned in 2018).

Tips to Get Your Refund Fast

1. In order to get your refund the fastest, you need to have W-2 forms from every job you had during the calendar year of 2018, even if you only worked at some

for a short time. Also, if you did any contract work or had any gambling

income tax refund in as little as 7-10 days if you use free direct deposit. Why pay \$100 or more for a week-long loan?

- Beware of tax businesses that promise refund amounts that just don't sound right. If they cheat to get you a bigger refund that is illegal, you are still responsible, and will owe back taxes and could face jail time.

When using a tax preparer, to be safe, look for one that is a CPA (Certified Public Accountant) or EA (Enrolled Agent) to do your taxes.

Read below for a chart that shows when you can expect your income tax refund in 2019.

Will You Get a Bigger Income Tax Refund in 2019?

Maybe, maybe not. For many, there may be no effect on their refund, particularly if they adjusted their tax withholding throughout the year. **The average worker was forecast to see \$1,000-\$2,000 per year in tax savings** (the higher amount for those with children). If you did not adjust the amount of taxes you have withheld from your paycheck, it could result in a larger refund. But for those who did make the adjustment, the result should have been about \$20-\$40 more per week in their paycheck. Many factors affect your tax rate and refund, so not all working taxpayers will realize the same results.

When Will You Get Your 2019 Income Tax Refund?

This is the question you probably came here for. First, with all of the major changes to the tax law, **the IRS is likely to delay the start of tax season.** In recent years, even

comparably minor changes have resulted in about a week delay, so it would not be

IMPORTANT: If you file electronically (using an online tax program or preparer), the IRS will notify you of the actual date they “accepted” your return. This is often 1-3 days from the time you actually hit the “file” button, and it is this date that you need to use for the above chart.

Taxpayers who mail their income tax return can expect at least a 3-4 week delay at the front-end of the process, as the return has to be digitized before it can be processed.

Be Safe – Hire a Professional

Taxpayers who use a professional, such as a CPA or EA, can ask that professional for the estimated date of their tax refund, and they can be more confident that their taxes have been properly (and legally) filed.

There are also [apps for Apple, Android and other devices](#) that help track refund status.

Note: The IRS will start processing most returns on January 29, but will not start processing returns with the Earned Income Tax Credit (EITC) or Additional Child Tax Credit (ACTC) until mid-February 2018.

Other Notes:

In general, the IRS says that returns with refunds are processed and payments issued

What If I Can't File My Income Taxes By April 15?

If you realize you don't have all of the paperwork you need in order to file your taxes, you or your tax pro can easily file an extension form, **"Form 4868, Application for Automatic Extension of Time to File U.S. Individual Income Tax Return."** – This will give you until October 15 to file your tax return. You don't need any reason or excuse to receive this extension, and as the title states, it is automatically granted.

However, if you owe taxes, it is still your obligation to pay those taxes by April 15, even if you request an extension. A professional can assist with this. If you are due a refund, all you need to do is file the extension request by April 15. Any tax professional and most do-it-yourself tax program can perform this task.
