employee engagement and offer real-time access to HR information. It also includes easy access to HR functions, such as submitting time-off requests, retrieving information on ...

Jan. 29, 2019

TriNet has announced the release of its latest version of the TriNet Mobile app, which further enables SMBs and their employees to access their HR data—anytime, anywhere. TriNet is a provider of full-service HR solutions for small and medium size businesses (SMBs).

The updated TriNet Mobile app helps SMBs streamline HR processes, improve

businesses. Today, we're again meeting a challenge that SMBs have been grappling with—providing 24/7 access to valuable HR data on mobile devices— by launching the improved TriNet Mobile app," said TriNet Chief Technology Officer Craig Flower. "The freedom to manage HR on the go can help businesses attract and retain key employees, while operating in a more effective and efficient manner."

TriNet Mobile Features

Key features of the redesigned TriNet Mobile app include:

- A redesigned user interface and navigation for an improved user experience.
- Detailed pay history, with in-depth paycheck comparisons.
- Access to benefits coverage information and member identification cards from certain medical insurance providers.
- Flexible spending account overview with last four digits of active card information, a current balance summary and a list of covered family members.
- Detailed company directory with colleague contact details.
- In-app messaging for team members to communicate.
- Summary and approval status for recent expense reports.

TriNet Mobile is available for download on iOS and Android.
