or e-filing of 1099-MISC, -INT, -DIV, -S, and -R.

- Handles paper copies and electronic filing of 1099 forms for the 2017 tax year.
- Works with the current version of CheckMark Payroll and imports data for employees who need 1099.
- Utilized the latest database technology. No database server is required.
- Data screen looks similar to a real 1099 Form.
- Fast. Data can be imported from text files as well as quickly keyed in manually.
- Allows preview of data before you print.
- Single-user capable, install locally and share data files over a local network.
- Sensitive data is encrypted for confidentiality.
- Windows® and Macintosh® compatible.
- Handles unlimited companies and unlimited recipients.
- Includes PDF User Manual and tech support for the filing year.

When e-filing, enjoy these additional features from CheckMark 1099 Software:

- No preprinted Copy A or 1096 "red" forms to purchase.
- Prints 1099-MISC recipient copies and payer copies on blank 4-up sheets.
- Prints all 1099 recipient copies on preprinted forms.
- Supports FIRE electronic filing, which requires an IRS Transmitter Control Code (TCC).
- Creates a single file that includes all companies and all forms ready to submit to the IRS.
