From the 2019 reviews of professional tax preparation systems.

ProSeries Tax from Intuit is well-suited for small to mid-sized accounting firms that prepare both individual and business returns for clients. ProSeries currently offers two plans; ProSeries Basic for firms handling 1040 forms exclusively, and ProSeries Professional, for firms that regularly handle both 1040 forms and business forms.

The Professional edition of ProSeries Tax also allows users to import data directly

directly to an individual return using the data import options included in the application. A variety of keyboard shortcuts are also available, and a wizard is available that helps maximize deductions for clients. The Professional version of ProSeries Tax also includes a Tax Planner to maximize services offered, and both editions of ProSeries Tax allow users to download documents and data from client financial institutions.

ProSeries Tax supports more than 3,600 forms and schedules, including 1040 forms, unlimited returns for all states where filing is required as well as unlimited Federal and State Business returns, including forms 1120, 1120S, 1065, 1041, 990 and unlimited Gift and Estate Returns (706 and 709).

ProSeries Tax offers complete e-file capability, with users able to easily manage the status of all e-filed returns. Client Status can be viewed on the ProSeries homepage with users able to view related client worksheets by simply clicking on their file. The Client Intuit Link, included with ProSeries Tax at no additional cost, is a secure online portal that makes it easy for firms and clients to share confidential files safely and securely. The portal can be custom branded for each firm and includes numerous features such as automated client reminders, custom email templates for each client, and the ability to invite clients to sign up for Link. In addition to sharing documents, Link can be used to submit client questionnaires and request specific documents, with users able to track the progress of any request made using Link.

Data can be imported into ProSeries Tax from QuickBooks Desktop applications. The product also offers seamless integration with the ProSeries Organizer, an optional module that allows users to easily carry prior year client totals forward for automatic data population, reducing the amount of data entry considerably. Firms can also create a client organizer for new clients, making it easy to quickly collect necessary data from each client. Other integrations available in the Professional edition of ProSeries Tax include the Tax Scan and Import feature that allows users to
