Randy Johnston, Executive VP – K2 Enterprises. “Cetrom has made rapid enhancements to its security methodologies, including proactively increasing its security measures, involving AI integration and multiple backup solutions in order to help prevent, detect and combat any future cyber threats against its clients. I hope their competitors are doing the same.”

Cetrom has been hand delivering [custom cloud solutions to CPA firms](#) since 2001. Designed and developed to meet CPA firms' specific hosting needs, each custom cloud service program is backed by senior-level engineers who provide around-the-clock [5 star rated customer support](#). Additionally, Cetrom's engineers pride themselves with extensive expertise when it comes to hosting and maintaining a variety of accounting-specific applications.

Johnson commented, “Cetrom has also built additional security best practice training tools and materials to help educate its clients and the Accounting profession about evolving cyber security threats and how to best protect client data. These materials are available publicly and should be reviewed by any security conscious CPA firm.”

Christopher Stark, president and CEO, Cetrom, said, “We're honored to be named K2 Enterprises' Top Hosting Provider for the fifth year in a row. We pride ourselves on providing 5-star cloud hosting service and support to the Accounting industry and we will continue to develop reliable and secure solutions for our customers.”

K2 Enterprises is a Hammond, Louisiana based organization that provides continuing professional education services to the accounting profession and marketing consulting services to technology providers in the accounting market. K2 Enterprises delivers approximately 700 educational programs to over 30,000 professional accountants on an annual basis throughout the United States and Canada.

K2 team votes are influenced by end user feedback and experience from consulting
