intuit proconnect™

Intuit Inc. has launched a new cloud hosting option for Lacerte and ProSeries with **Hosting for Intuit ProSeries** and **Hosting for Intuit Lacerte**. Backed by Intuit and powered by Right Networks, cloud hosting for Lacerte and ProSeries gives tax professionals the ability to access their work anytime, anywhere through a server-free, maintenance-reduced model with built-in data protections.

“In today’s landscape, availability to the tools needed to deliver on client needs is paramount to the productivity of the firm and its employees,” said Jorge Olavarrieta, VP of Product Management at Intuit’s ProConnect Group. “As more accounting and tax professionals look to cloud-based technology, cloud hosting for Lacerte and

ProSeries allows our customers to keep the desktop software they know and love,

servers, no backups and no maintenance needed. Automatic backups and software updates mean data will be protected and restored, and tax pros have access to the latest product available. This can reduce the burden of needing to handle these updates with valuable firm resources. To ease the transition from desktop to hosted, U.S. based experts for Lacerte and ProSeries are available to help with personalized training and customer support.

With security as a top priority for firms and their clients, Hosting for ProSeries and Lacerte has gone through rigorous testing to help ensure the product has more safeguards than the current on-premise desktop solutions. Data is protected with enterprise firewalls, antivirus protection, encryption and off-site data storage to prevent data loss. Data is automatically backed up nightly and stored for 90 days, helping tax pros keep their clients' data more secure and accessible.

“By partnering with Intuit ProConnect to integrate our cloud hosting platform with Lacerte and ProSeries, we have expanded the reach of the cloud's flexibility, security and connected collaboration to tax professionals and firms handling returns of all sizes and complexities,” said Joel Hughes, CEO of Right Networks. “The increased productivity delivered by our HyperRight platform helps firms scale more quickly and efficiently.”

Right Networks' cloud hosting platform installation is handled by Intuit's engineering team and the no-contract monthly pricing for both ProSeries and Lacerte is flexible for seasonal workers. Tax professionals may contact Intuit at 844-861-3603 to talk to a specialist.

Please find more information on cloud hosting for ProSeries and Lacerte at proconnect.intuit.com/proseries/hosting and proconnect.intuit.com/lacerte/hosting.
