Gold, Platinum, and Diamond plans. Websites can also include up to 67 pages prefilled with relevant client content, with users able to add an unlimited number of custom pages to the site if desired. This ready-to-go process makes it simple to have a functioning website quickly, with the ability to add additional content at a later date.

CPA Site Solutions offers an excellent array of website content in all of its plans, including an automated monthly client newsletter, 3,000 + pages of financial and tax guides, business strategy articles, and 1,000 frequently asked questions and answers, with users able to choose what content they wish to include on their website. Also available are life event guides, more than 50 interactive financial calculators, and an investment strategies section. The product also includes numerous productivity tools, including a tax organizer, a firm portal for sharing confidential documents with clients and employees, the ability to accept online payments, and even the ability to add an online bookstore to the firm website.

CPA Site Solutions allows firms to use their own domain, point multiple domains to the website, and will handle domain name registration, transfer, and renewal services. Those that wish to edit their website can do so by simply logging into the Site Manager, where pages can be edited, hyperlinks entered, and Microsoft Word documents converted to HTML format for easy viewing. Users can also upload images to the Site Editor to use on the website. For those hesitant to make changes, the Site Manager Tutorial will take users step-by-step through the enter site editing process.

CPA Site Solutions offers excellent website optimization, with users able to view all website traffic statistics, add unique page titles, and use customizable search engine descriptions. All websites are indexed by popular search engines such as Google, Yahoo, and Bing, and users can add their own key words to increase site visibility.

CPA Site Solutions also offers website add-ons such as search engine optimization
