Aug. 04, 2020

2020 Innovation Award Winner! AccountingSuite™ is built on the [1C:Enterprise platform](#) that is used daily by several million users in the business and government sector. 1C:Enterprise is a very flexible and scalable platform that meets the needs of companies ranging in size from a single user to thousands of employees. By utilizing the 1C cloud-based platform, AccountingSuite™ can easily scale with you as your business grows.

Why is AccountingSuite™ great software for startups? Because it comes inclusive of every feature your business would need without the additional costs.

Including [inventory management](#)!

AccountingSuite recently announced the ability to customize the cloud accounting software by user through new extensions. This advanced functionality builds upon the robust inventory management and eCommerce solutions to support complex organizations in a tailor-made model. AccountingSuite uses extensions to extend the functionality of the software. So instead of supplying the users with all types of features that they don't need which can make their software clunky, the technology focuses on a model that empowers the users to install extensions on an as-needed basis.

Perhaps one of the easiest customization tools on the market, within the software, users install the Customization Selection Tool which allows them to add items to various panels using a multiple selection window or by continuously adding items one by one. The selection window remains open until the work has been completed. This extension works within purchase orders, items receipts, assembly builds,

disassembly builds, drop-ship deliveries, bills, purchase returns, quotes, sales
