client requests, directly from the Canopy Mobile app.

“Canopy will continue to update its time and billing functionality including improved reporting, enabling firms to more easily track projects in addition to adding more powerful insights to how the practice is performing overall. These updates are increasingly important as virtual work becomes a necessity,” continued Furr.

## Tax Resolution

- **Notices eSign:** Accountants and their clients can now eSign an editable document within Canopy's Notices tool, resulting in saved time and streamlined notice resolution for the client.

In the coming weeks, Canopy will also be introducing annotations for better document management. PDF annotations can be applied and managed within Canopy to support team collaboration, particularly for teams working remotely. Staying updated and comparing notes on documents, has never been easier.
