Let's push 2020 out of our minds and think good thoughts for 2021: Starting with the coming vaccines, and then income tax refunds.

First: The Covid stimulus payments you received in 2020 (and the second check

Although the 2020 tax season was significantly impacted by the Covid-19 pandemic, and the IRS extended last year's deadline past the April 15 date, the IRS has not said there will be a delay in this year's upcoming 2021 tax season, and it is not expected.

The below chart shows an **estimated** timeline for when a taxpayer is likely to receive their refund, based on the information we have now, and using projections based on previous years- and depending on when a person files their return. If your IRS income tax refund is delayed after you've filed, ask your tax professional, or simply use the "**Where's My Refund?**" tool on the IRS website. Or download the **IRS2Go app** to check your refund status.

Most Americans who are expecting an income tax refund receive it by direct deposit in as little as 2 weeks, although it can take longer during the peak of the filing season, which starts in late March. So it's a good idea to e-file your tax return as soon as you have all of your tax documents (like your W2, 1099s, mortgage and student loan interest, and other items).

Several factors can determine when a taxpayer may receive their tax return, including:

- How early they file
- If the taxpayer is claiming certain credits (especially EITC and CTC)
- Whether the return is e-filed or sent by mail
- Whether the taxpayer has existing debts to the federal government
- The Covid stimulus payments sent out earlier in the year **will not** affect your income tax refund. (However, some taxpayers who did not receive one, may be determined to have been owed one, in which case they may be able to have it added to their 2021 refund as a credit. As a local tax professional.)

Also worth noting: The IRS will delay processing by 2-3 weeks if an income tax

into the IRS system before it can be processed.

Be Safe – Hire a Professional

Taxpayers who use a professional, such as a CPA or EA, can ask that professional for the estimated date of their tax refund, and they can be more confident that their taxes have been properly (and legally) filed.

There are also [apps for Apple, Android and other devices](#) that help track refund status.

Other Notes:

In general, the IRS says that returns with refunds are processed and payments issued within 21 days. For paper filers, this can take much longer, however. The IRS and tax professionals strongly encourage electronic filing.

What If You Can't File Your Income Taxes By April 15?

Taxpayers who don't have all of the paperwork needed in order to file their taxes can easily file an extension form, **"Form 4868, Application for Automatic Extension of Time to File U.S. Individual Income Tax Return."** – This will give the taxpayer until October 15 to file their tax return. No reason or excuse is needed to receive this extension, and as the title states, it is automatically granted.

However, if a person will owe taxes, it is still their obligation to pay those taxes by April 15, even if they have requested an extension to file. A professional can assist with this. Those who are due a refund generally only need to file the extension request by April 15. Any tax professional and most do-it-yourself tax programs can perform this task.
