# AuditFile.com

AuditFile, Inc., developer of the award-winning cloud-based audit automation platform, has been awarded a Multiple Award Schedule (MAS) contract by the United States federal government's General Services Administration (GSA). The MAS program, which allows contractors direct access to opportunities not available on the open market, was created to streamline government purchasing of commercial products and services and to leverage the buying power of the federal government.

AuditFile is also now listed on GSA Advantage, the online shopping and ordering system that provides easy access for government customers to thousands of contractors and millions of supplies and services. The five year GSA MAS contract provides federal, state and local government agencies the ability to cost effectively and efficiently acquire three categories of AuditFile's services, identified by the following Special Item Numbers (SINs):

- **511210 Software Licenses** Includes both term and perpetual software licenses and maintenance.

- **518210C Cloud and Cloud-Related IT Professional Services** Includes commercially available cloud computing services such as Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS) and emerging cloud services. IT professional services that are focused on providing the types of services that support the Government’s adoption of, migration to or governance/management of Cloud computing. Specific labor categories and/or fixed price solutions (e.g. migration services, etc.) that support activities associated with assessing Cloud solutions, refactoring workloads for Cloud solutions, migrating legacy or other systems to Cloud solutions, providing management/governance of Cloud solutions, DevOps, developing cloud native applications or other Cloud oriented activities.
- **54151 Software Maintenance Services** Software maintenance services creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance services includes person-to-person communications regardless of the medium used to communicate: telephone support, online technical support, customized support, and/or technical expertise which are charged commercially.

“We’re always excited for new business,” said Steven Bong, founder and Chief Executive Officer at AuditFile. “The AuditFile platform works great for CPAs, internal auditors, and government auditors.”

AuditFile is the only complete, cloud-based all-in-one audit automation platform for public accounting professionals. Offered in three subscription options, AuditFile easily scales to meet the specific needs of firms of all sizes and specialties, and includes data storage, web training, and technical support in the subscription fee.
