Corvee, a software and solutions company serving tax and accounting firms, is offering a webinar to help tax and accounting professionals navigate the latest COVID-19 Stimulus Relief Bill (American Rescue Plan). The webinar aims to provide insight and information on the latest complex legislation so tax professionals can help clients save money.

This webinar will take place on March 16 at noon EST and will provide:

- Updates on the PPP, EIDL and ERTC and what clients need to do about it.
- Updated modifications to other credits including earned income, paid sick, family leave credit, and more.
- Insight on how tax professionals can package, price and offer new Stimulus Bill consulting.

“Another large round of COVID-19 Stimulus Relief is slated to pass and all accounting and tax professionals need to know what this means for their clients,” states Andrew Argue, CEO and co-founder of Corvee. “This webinar will look at the most important inclusions tax and accounting firms need to know about; what changed that will make a big financial impact on clients; and why clients need to act fast.”

Registration for the webinar is available at <https://bit.ly/3bsHCfh>.
