services companies assurance that an application or platform meets security, availability and confidentiality standards as defined by the American Institute of CPAs (AICPA).

Apr. 28, 2021

[FloQast](#), a provider of accounting workflow automation software created by accountants for accountants, today announced it has successfully completed service organization control (SOC) 2 Type 1 certification. The new certification is in addition to the company's SOC 1 Type 2 certification, which it has achieved annually since 2016.

SOC 2 certification gives customers of SaaS and other cloud and data center services companies assurance that an application or platform meets security, availability and confidentiality standards as defined by the American Institute of CPAs (AICPA). Type 1 certification is a confirmation of controls at a specific point in time, while Type 2 tests the effectiveness of controls over a period of time, typically six to 12 months.

"As a company of accountants, we have many CPAs who have spent years auditing other companies on their financial data security, so we understand and believe in the importance of it," said Mike Whitmire, CPA*, CEO and co-founder of FloQast.

“Achieving SOC 2 Type 1 certification also makes perfect business sense because it
