K2 Enterprises has announced the results of its K2 Quality Awards. Now in their twentieth year, the awards are among the most well respected and longest-standing

awards in the Accounting industry. In announcing this year’s award winners, Randy Johnston, Shareholder and VP at K2 Enterprises, was quite pleased with the innovation. “The software publishers are responding to customer demand with improvements in their products.” according to Johnston.

K2 Enterprises prime award

In 2015, K2 Enterprises added a new overall award called the **Prime** award. Each year this award is given to one and only one company that fits the criteria below. If it is deemed that no company fits the criteria, then no award will be given. The Prime award is given to a company that is leading in almost every category listed below.

The following are key considerations used in voting for the Prime award:

- Reasonable management goals and expectations
- Long term stability in the accounting market
- Clear and honest communication with employees and market influencers
- High quality products
- Top shelf customer support
- Significant commitment to product development and product improvement
- Great management vision and direction for both current and future plans

K2 Enterprises would like to congratulate **Corpay One, Inc.** as the recipient of the 2021 Prime award.

“Corpay One has driven down the costs of accounts payable management with an innovation and simple drag and drop workflow”, said Brian Tankersley, Director of Strategic Relationships for K2 Enterprises. “The competitive labor market requires every business to do more with less, and accounting firms and their clients can help firms automate many of the largely manual workflows associated with entering, approving, and paying vendors.”
