“This exciting partnership with Vestwell allows Patriot to expand our offerings and make it easier for our customers to offer 401(k) plans to their employees,” says Mike Kappel, CEO of Patriot. “At Patriot, we’re committed to providing fast, affordable accounting and payroll for business owners and their accountants to ensure their success. We chose Vestwell as our partner given their extensive experience in the financial services industry, innovative technology, and strong commitment to creating a lasting partnership.”

A leading barrier for small businesses to offer retirement plans is often the integration with payroll. The Patriot and Vestwell partnership is designed to help small businesses by easing the administrative burden through streamlined, automated payroll processing, taxes, and compliance, all in a cost-effective and user-friendly platform. The underlying architecture of the partnership is powered by Vestwell’s leading cloud-based digital recordkeeping platform.

“Payroll providers play an integral role in closing the retirement savings gap,” said Aaron Schumm, Founder, and CEO of Vestwell. “We’re thrilled to be the exclusive provider of workplace savings programs for Patriot and support their business clients to offer the quality retirement programs they deserve.”

Through this partnership, Patriot and Vestwell are working to close the savings gap by offering affordable workplace savings solutions to American businesses across the country.

Benefits • Payroll • Technology
