- Manage billing and revenues in perpetuity, including all future up-selling and down-selling, cancellations, and recurring billing cycles.
- Eliminate the need to manually aggregate, integrate, and reconcile subscriptions with third-party solutions.
- Navigate the complexity of hybrid models, accurately predict consumption, and roll out new pricing models with minimal impact to accounting and revenue operations.
- Gain a consolidated view of financials, billing, revenue, cash, and SaaS metrics across billing models and cohorts, including historical, current, and forecasts.

“Supporting our customers to be successful in their given industry is core to what we do,” said Dan Miller, EVP Sage Intacct Business Unit. “Managing subscription billing manually is complex, the enhancements we have made in this release provides customers with an automated solution to a complicated manual process. This, in turn, helps our customers to focus on what matters – providing great customer service!”

Inventory Fulfilment

In addition, the latest version of Sage Intacct offers improved warehouse efficiencies and real-time inventory visibility. Furthering Sage Intacct's support for product-based companies, Release 2 provides improved warehouse efficiencies and real-time inventory visibility throughout the order fulfilment process.

Customers gain 360-degree insights into the status of orders by providing visibility into where items are in the fulfilment process. With Sage Intacct, users can:

- Create customizable workflows to stage and fulfil orders with more efficiency.

- Track order status as items move through the pick, pack, ship, and invoicing

Construction Contracts and Billing

A new streamlined progress billing process with more options for time and materials billing has improved the creation of AIA-style payment applications. New enhancements to construction billing provide more options to create and manage construction contracts and schedules that integrate change requests and change orders. Benefits include:

- Comprehensive management of a construction contract and a schedule of values.
- Increased flexibility in managing billing and contracts for general contractors and speciality contractors.
- Fully integrated cost and revenue change management from the estimate to the contract.

With Release 2, Sage Intacct Construction has more flexibility to meet the complex demands of construction businesses across general and speciality contractors allowing them to access leading accounting functionality on a modern, cloud solution.
