Processing

With its new offering, Infrd is promising its customers they can achieve unprecedented levels of success in the extraction and processing of data from within their documents. This is due to the powerful Artificial Intelligence (AI)-led capabilities found in Infrd's proprietary and patented technology. Infrd's IDP software platform, coupled with its team of data experts (which provides as needed human-in-the-loop processing), has the ability to learn from initial errors in the processing of data and quickly correct these to ultimately reach this 100 percent accuracy target.

Jun. 20, 2022

Infrd, a provider of Intelligent Document Processing (IDP) solutions, has announced the unveiling of an industry-first **100 percent accuracy offering** for the processing of high volumes of complex documents spanning many variations of document types. These include, among others, invoices, mortgage-related documents, Form W2s, tax paperwork and more.

With its new offering, Infrd is promising its customers they can achieve unprecedented levels of success in the extraction and processing of data from within their documents. This is due to the powerful Artificial Intelligence (AI)-led capabilities found in Infrd's proprietary and patented technology. Infrd's IDP software platform, coupled with its team of data experts (which provides as needed human-in-the-loop processing), has the ability to learn from initial errors in the processing of data and quickly correct these to ultimately reach this 100 percent accuracy target.

Infrd is packaging this core offering with a performance-based pricing model to stand by its accuracy claim. Numerous customers across varying industries and sizes are already benefiting from this model. As an example, one global technology Infrd

customer processing more than 40,000 documents per month has already been

performance because we are very confident in the power and proficiency of our technology and the subsequent results it delivers to Infrd customers. Our AI-led solution ensures customers can reach their processing goals seamlessly and more quickly with 100 percent accuracy than any other solution in the market,” explained Amit Jnagal, Infrd founder and chief executive officer.

“Of late, customers of other IDP vendors have shared with us how they have not been able to reach their desired levels of document accuracy in their processing initiatives. Many of these companies have since moved to the Infrd IDP platform where we have fast-proven our abilities in addressing their issues and delivering the highest level of data accuracy. This, in turn, has transformed their businesses by enhancing their productivity, improving operations, accelerating business scalability, reaping cost efficiencies and elevating their customer experiences. Our customers are already harnessing the benefits of our technology which is why we are now offering this unique 100 percent accuracy promise with performance-based pricing,” Jnagal added.

Infrd customers can feel confident in the Company’s IDP technology as every solution offered is backed by industry-standard certifications, such as ISO-27001, and also are General Data Protection Regulation (GDPR)-compliant.
