How the leaderboard works: The Accounting Top 100 social media leaderboard uses an algorithm that scores and ranks users based on five separate metrics, each of which is weighted according to its perceived value. These five metrics are calculated every two weeks and combined to form a Power Score: a 1-100 value based on Rise.Global's Relative Scoring Method. This Power Score determines a user's rank on each new leaderboard release.

Want to see yourself rank even higher?

Remember, a new leaderboard with updated rankings is generated every two weeks, so keep up the great work on social media and watch your ranking climb.

Think you have what it takes to make the Top 100? [Join for free today!](#)
