AvidXchange, a provider of accounts payable (AP) automation software and payment solutions for middle market businesses and their suppliers, has launched AvidAnalytics, a premium Business Intelligence (BI) solution. AvidAnalytics offers buyer customers custom reporting methods to help improve spend management and drive stronger results and efficiency for the organization. It goes beyond standard industry methods with tools like intelligent analytics, immersive dashboards and embedded data visualizations.

These tools within the BI solution provide increased visibility into the AP process, versus traditional manual methods, by featuring the organization's purchase orders, invoices and pay data on interactive, visual dashboards within AvidInvoice, AvidPay and AvidBuy platforms. This functionality also allows users to drill into specific areas of interest and data to get more actionable insights in the solution, an ability traditional manual reporting does not offer.

“AvidAnalytics is a much more efficient way to pull report data from the
