Among other things, this means that eligible taxpayers will also have until Oct. 16 to make 2022 contributions to their IRAs and health savings accounts.

In addition, farmers who choose to forgo making estimated tax payments and normally file their returns by March 1 now have until Oct. 16, 2023, to file their 2022 return and pay any tax due.

The Oct. 16 deadline also applies to the estimated tax payment for the fourth quarter of 2022, originally due on Jan. 17, 2023. This means that taxpayers can skip making this payment and instead include it with the 2022 return they file, on or before Oct. 16.

The Oct. 16 deadline also applies to 2023 estimated tax payments, normally due on April 18, June 15 and Sept. 15. It also applies to the quarterly payroll and excise tax returns normally due on Jan. 31, April 30 and July 31.
