INNOVATION
AWARD | **2023**

The *CPA Practice Advisor* Tax & Accounting Technology Innovation Awards honor new technologies that help accounting firms and their small business clients operate

more efficiently and profitably through improved workflow, increased accessibility, or enhanced collaboration.

Now in their 20th year, the Innovation Awards highlight technologies that are shaping the profession and small businesses through increased collaboration and productivity. These tools are allowing firms to better management workflows, and to be more productive and more secure, while engaging with clients in ways that are convenient and productive for them as well.

Deadline: June 26, 2023 | [Go to the Nomination Form.](#)

AWARD SELECTION PROCESS

Each year, a total of five award winners are announced, based upon the voting of the awards committee. Additional technologies are also recognized as award finalists. The awards are not ranked or divided into categories. All nominated products and services that meet the submission requirements have the opportunity to be selected as award winners or finalists.

The awards committee is comprised of the editorial staff at *CPA Practice Advisor*, thought leaders among the profession, and the publication's Editorial Advisory Board. These members include accounting and tax professionals from across the country who are engaged in a variety of practice areas.

RULES FOR NOMINATION

Anyone can nominate a product or service for an award (vendor, user, third-party). There is a nomination processing fee of \$295, which covers the costs of evaluation and logistics. Each product or service can only be nominated once. If you nominate a product or service that has already been nominated, your nomination fee will be returned. The selection process is determined by the subjective opinions of the members of *CPA Practice Advisor's* awards committee and does not use outside votes or user testimonials during the process.

Award nominations will be initially screened for compliance with the following conditions of eligibility for the awards. Those not meeting these conditions will be removed from the nominee pool at no charge.

The Innovation Awards debuted in 2004, serving as a spotlight to honor new or recently enhanced technologies that benefit tax and accounting professionals and

their clients through improved workflow, increased accessibility, enhanced collaboration, or other means.
