Special Report: 2023 Reader's Choice Awards

Now in their 19th year, CPA Practice Advisor Readers' Choice Awards give our readers a way to spotlight the technologies they've found to be most useful in running their practices or helping them provide services to clients.

May. 24, 2023

Now in their 19th year, CPA Practice Advisor Readers' Choice Awards give our readers, most of whom are tax and accounting professionals in public practice or in corporate roles, a way to spotlight the technologies they've found to be most useful in running their practices or helping them provide services to clients, in addition to client-side systems that may help streamline the relationship with the firm. Categories for this year's awards range from online tax, research, and accounting systems, to remote engagement, practice management, document automation, workflow tools, apps for collaboration, mobile productivity, and more. And yes, office hardware such as printers, scanners, and other devices still remain an integral component for successful practices, even as they become more digitized.

The Readers' Choice awards also give professionals the chance to see which technologies and workflow systems their peers are using and trust, which can help them build more efficient and profitable workflows for their own practice. We thank the more than 5,000 professionals who participated in voting this year. And now, the results are in!
