The annual Scaling New Heights technology conference for accounting professionals and financial advisors will be held June 16-19, 2024 at the Orlando Marriott World Center in Orlando, Florida.

The Scaling New Heights conference is a leading accounting technology event and one of the largest gatherings of accountants and bookkeepers in the country. For four days each year, Scaling New Heights transforms the way businesses operate by equipping business advisors to provide their clients with business coaching, technology consulting, financial insights...and much more.

continues to contribute to significant advancements in science, many of Kaku's most recent works focus on the impact of emerging technologies like AI, quantum computing, and robotics on business, and culture. His most recently published work is entitled *Quantum Supremacy: How the Quantum Computer Revolution Will Change Everything* and represents the thought leadership role Kaku is taking to prepare the world for the coming technological landscape.

The technological shifts Kaku will address at Scaling New Heights are, in part, driving a future for accountants and bookkeepers that is uncertain...that requires us to “Boldy Go.” Who better to prepare us for this future than one of the engineers of this future...Michio Kaku!
