

WHO'S WHO

AMONG THOSE SERVING THE TAX & ACCOUNTING PROFESSION

COMPANY OVERVIEW

Serving the accounting profession for over 15 years, Office Tools Professional is a proud developer of the best practice management software. Receiving many accolades as the best solution for the small to mid size firm, *Practice Management Software* has become the Accountants choice. Awards include two consecutive years *CPA Practice Advisor* "Reader's Choice Awards" for superior workflow software.

In our culture it's all about resources. We recognize that to really serve our industry we need to provide the necessary resources to our users. These resources are not limited to

our software but include an annual Practice Management conference and publication.

The *Practice Management Conference* and User Training is a great opportunity to learn how to use all *Practice Management Software* features. Every attendee will receive training and a chance to network with other professionals, sharing common problems and exploring new solutions in a round table format and panel discussions.

My Office Today is a publication that specifically targets small business owners, who feel isolated and lack the resources bigger firms have. My Office Today focuses on relevant topics which are released on our website in blog, video, and print format.
